

E - Water Conditioning System

KEEPS YOU WORRY FREE FROM YOUR PIPING PROBLEMS

CONDITIONS THE WATER

SOLVES THE PROBLEM OF SCALING

FIT IT FORGET IT

SALT FREE
CHEMICAL FREE
MAINTENANCE FREE

INNOVATIONS FOR COST SAVING & BETTER LIFE...AT THE SAME TIME

Domestic:

It is of great use in apartments, Colony, Bungalows, hospitals, commercial complex etc. It helps to reduce skin diseases & hair problems. Also reduces maintenance cost of washing machine, RO system, geyser, shower and whole piping system. It makes soap and detergents more efficient. Your sink, kitchen utensils, wash basin, wash area remains stain free.

Industrial:

It increases efficiency of plastic, ceramic, chemical, pharma plants. System helps to reduce maintenance expenses to remove scale formation in boilers, cooling towers, cooling systems, heat exchangers etc. In ice factories one can save electricity and time. It is of great use in solar plants too.

Poultry and cattle farms:

Improves FCR in poultry farm, which a very important factor in profitability calculation. It Improves water intake capability of cattle and pets. Also helps to control kidney and teeth diseases. Monthly cycles remain regular in female animals. Death rate decrease to due to better water intake and improved digestion power.

Agriculture:

Enhance roots efficiency to absorb fertilizers and pesticides and consequently greater fiscal yield. Helps to improves quality and color of vegetables. Keeps dripper clean in drip irrigation method. Keeps soil soft and fertile. One can make use of water having high TDS level in farming. It reduces surface tension of water, so pesticides become more effective on insects, which are harmful to crops.

UNIQUE FEATURES OF SCALERT ANTI SCALING SYSTEM®

Signal Belt Technology - Non Magnetic

- * Not just it stops scale forming but gradually removes previously deposited scale in pipe
- * Consumes very little electricity, just 5 watt - even less than so called ZERO's bulb
- * Only one time investment, zero maintenance cost for years because it is salt free and chemical free
- * Can work with various pipes like Galvanize, U-PVC, C-PVC, copper, stainless steel or any
- * Very easy to install
- * Trouble less working from 150 V ac to 250 V ac input ac power
- * Very safe, as no part of system comes in contact with water
- * Different models are available for various sizes of pipes
